

Magnesium Fluoride Evaporation Material

MgF₂

Product family: Evaporation Materials

SUPPLY FORMS	INFORMATION FOR A PRECISE RFQ
- Granules - Irregular pieces - Pellets where available - Process-matched particle range	- Purity or optical grade - Particle-size range - Deposition method - Total quantity - Required analysis - Application wavelength

TYPICAL APPLICATIONS

- Antireflection coatings
- Optical filters
- Laser optics
- UV and visible optics

ORDER AND DOCUMENTATION

Final purity, composition, dimensions, tolerances, analysis documentation, quantity, lead time and DAP or EXW delivery terms are confirmed in the Adesis quotation. Values in this guide are descriptive and do not constitute a binding product specification.
